## FINANCIAL AND COMMERCIAL.

MONDAY, Oct. 9-6 P. M. The stock market manifested an improving tendency this morning, and as the day advanced the disposition to renew operations for a rise increased, New York Central being the leading favorite. At the first board the latter sed 21/2 higher than at the same time on Saturday, Eric & Reading %, Cleveland and Pittsburg 1%, Nort western & preferred %, Fort Wayne 2%, Prairie du Chien 1%, Ohlo and Mississippi certificates %, Cumberland &, Quicksilver %. There was a sale of Panama Railroad stock at 240. State stocks were firm. Government recurities were

Coupen ten-forties were % lower.

After the call Erie advanced to 91, upon the China's advices reporting the stock at 60% a 60% in London on the 30th uit. Gold bearing securities also became stronger under the quotation of 70 a % for five-twenties

The board suspended general business for a short me to consider a complaint relative to the trans-er system of the Cleveland and Pittsburg Railway Company. It was stated that a letter of in-quiry upon the subject had been addressed to its president about a fortnight ago, but that no answer stock from the list. After some sharp discussion the subject was tabled. It is contended that the company ought to have a transfer agent in this city, and not leave its business to the care of a bank. The matter will probably be so adjusted as to remove all objections by the president signing the certificates and the bank offi-

cers countersigning them.

At the open board at one o'clock the market was active and buoyant, and at the second regular board the improvement was sustained, Michigan Southern and New York Central being the strongest on the list. The former closed 5% higher than at the first board, and the latter 2½, Erie 2, Hudson River 1½, Reading 1, Illinois Central 2½, Cleveland and Pittsburg ½, Northwestern ½, pre-ferred ½, Rock Island 1½, Prairie du Chien 1½. The large increase in the earnings of the Ohio and Mississippi Railroad—those from January 1 to August 31 having been \$294,000 in excess of those for the corresponding period last year-is attracting attention to the certificates, in view of the probability of their ultimate conversion into a dividend-paying stock. Fort Wayne and Quicksilver were steady. Government gold bearing securities were in a little better demand, and old five twenties were strong at an advance of %. Seven and three-tenths notes of the third series were, however,

At the open board at half-past three the market was a fraction lower, except for New York Central, which odvanced to 103%. Eric closed at 61%, Hudson River 109%, Michigan Southern 77%, Reading 117%, Prairie du Chien 69, Cleveland and Pituburg 83%, Rock Island II1%, Northwestern (b. 3) 31%. preferred 67, Fort Wayne 102, Ohio and Mississippi certificaces (b. 3) 30%, Cumberland 47, Central Coal 59%, Quicksilver 51.

Afterwards, on the street, the market was a shade lower on a portion of the list.

Petroleum stocks were steady at the first board, with the exception of United States, which was \$1 50 lower than at the same time on Saturday; McClin-tock, which was 40c higher, and Buchanan Parm 3c. At the second board the market was irregular. Pithole Creek closed at \$7.65, Bennehoff Run \$12, Buchanan Farm 86a, Empire city 45c., Ex ... Germania 36c. First National 32c., Oil Creek \$1 00. Bynd Farm \$1, United States \$29.

The gold market underwent a further weakening, con-sequent upon the news of the advance of 4%c. per pound n cotton at Liverpool, and the great activity and advance in American securities abroad. The avidity with which the Erie bonds offered for subscription at 75 e taken up would seem to foreshadow an increased and for our railway and national stocks in England, sudden rise in the price of American cotton in the Liverpool market is, however, not likely to stimulate its export from this side, as the advance abroad has been ready neutralized by the rise of 10c. a 12c. per pound which has taken place here to-day. The opening quota-tion was 146%, from which there was an advance of % and then a gradual decline to 145%, at which the marke closed. The supply of coin was abundant, and loans

Foreign exchange was dull but steady at Friday's cs. There is just now a partial lull in the import de, owing to the wants of the fall trade having been to a great extent supplied; but the spring orders which have been sent abroad are generally represented to be unusually heavy, and hence there is every prospect, in iew of the probable exports, of a firm market for exchange for some time to come. The advance in the ik of England rate of discount, showing the increased demand for money, operates in this direction, and has already strengthened the rate for short sight bills.

The demand for money is active in the discount line and moderately so from the Stock Exchange, which latcapital is fully equal to the demand, although the statement of the associated banks for the week, if we exclude the First National Bank, increase of more than four millions in loans, with an increase of only about a quarter of a million in deposits. But as the First National formerly made its clearances through some other bank belonging to the Clearing House, its affairs were more or less represented when we accept the figures of the full statement, which show an increase of \$6,702,087 in loans and \$4,673,770 in deposits. There is a loss of \$173,048 in the specio line, and of \$846,078 in the legal tender notes. There is every reason to look for an easier market this week than last, as a considerable number of loans were suddenly called in by the advanced rate of seven per cent. Under this condition of monetary affairs, in the present highly speculative temper of the street, there is reason to look for renewed excitement and higher prices on the Stock Exchange before any considerable break occurs. The market is, however, likely to be more or less spasmodic in its movements, while the attention of the operators will be mainly confined to the active clique stocks.
